

360° PORTABLE LIGHT TOWER

Providing high visibility, dispersing 360 degrees of non-glare light evenly around the tower

PRODUCT OVERVIEW

RPM Hire's ECO 360° LED mobile lighting tower is the ultimate portable lighting solution available to hire. Boasting the latest technology with an efficient 2-cylinder diesel engine and automatic mast operating system. The outdoor lighting tower disperses 360° of light evenly around the tower to increase visibility.

360° PORTABLE LIGHT TOWER

RPM Hire's ECO 360° LED mobile lighting tower is the ultimate portable lighting solution available to hire. Boasting the latest technology with an efficient 2-cylinder diesel engine and automatic mast operating system. The outdoor lighting tower disperses 360° of light evenly around the tower to increase visibility.

Illuminate your next civil works, construction site, roadworks, event or major project with the effective trailer mounted light tower. The outdoor light tower ignites immediately and provides bright non glare light for up to 200hrs.

KEY FEATURES & BENEFITS

- Non-glare light is distributed 360° around the light tower
- Fuel efficient 2 cylinder, 1500rpm, water cooled diesel engine
- 200-hour operating time – reduced maintenance & fuel costs
- 48V extra low voltage lighting system
- Automatic mast operating safety system
- Auto Start/Stop light sensor
- Lamps ignite immediately
- Environmentally sustainable lighting solution
- CO2 reduction of 888kg per month
- Equipped to a mobile road ready trailer
- Compact and robust design, with stabilising legs for extra support
