

PORTABLE ARROW BOARD

Arrow boards are highly visible LED electronic traffic control signs.

PRODUCT OVERVIEW

Portable arrow boards are trailer mounted, easy to program onsite and are effortless to operate. The automatic brightness control setting ensures that arrow boards stay highly visible, even in Australia's changing weather conditions. Trailer mounted LED arrow boards assist with traffic management, by providing the appropriate directions to motorists on active roads. The LED arrow boards are an eco-friendly equipment option, thanks to their 120 watt solar powered system.
