Electronic Signage

At RPM Hire, we understand how essential electronic signage is to the success of your project. That's why we provide a wide range of electronic signage and traffic monitoring tools to help safely and clearly communicate changes to motorists and pedestrians.

VARIABLE MESSAGE SIGN - A SIZE

- Compact size for use in metro areas with limited space
- Remote programming capability
- Solar-powered with a back up battery for 24/7 operation
- Auto lighting control with non-glare UV resistant screens
- GPS: Satellite tracking & tamper alarm

VARIABLE MESSAGE SIGN - C SIZE

- 5 colour matrix and amber screens are available
- Remote programming capability
- Solar-powered with a back up battery for 24/7 operation
- Auto lighting control with non-glare UV resistant screens
- GPS: Satellite tracking & tamper alarm

Optional accessories

Pan & Tilt CCTV Cameras

- Live streaming, video recording, 10 x optical zoom and continuous 360° pan.
- Monitor live traffic, record traffic movements, traffic volumes, building site and equipment monitoring.

Speed Detection Radar

- Speed detection data including recording motorist travel speed, time and date.
- Monitor and provide necessary warnings to motorists.
